Bart I never would have been able to do this if it had not been for what I was able to learn from you and your positive influence. I know it wasn't a long period of time but I learned a lot in those two years. It really filled in the gaps on what I knew from architecture school and gave me the practical knowledge and confidence to actually build a decent house. Plus it was a time in my life when I needed someone to look up to. You inspired me, and I am very thankful.
