

**Christine  
Cronin**

**Education**

Princeton University  
Bachelor of Arts in Sociology

**Professional Experience**

Before joining Building Science Consulting in 2006, Christy Cronin spent two years working in product development and branding for a large retailer in Texas and Mexico. She managed the development – from the financial analysis of the concept, sourcing suppliers and product reformulations to package design and marketing plans – of more than 50 new items, generating millions of dollars in sales.

At Building Science Consulting, Christy manages Building Science Press Inc., which publishes Lstiburek's *Builder's Guide* series

as well as newer building science titles by Armin Rudd (*Ventilation Guide*) and John Straube and Eric Burnett (*Building Science for Building Enclosures*).

Christy also manages Building Science Seminars, which promotes building science education for architects, engineers, builders, materials manufacturers and contractors through its 12 AIA and IAQA continuing education certified seminars a year.

Christy is pursuing her Master's of Architecture with a focus on sustainable design at the Boston Architectural College.
